

for Effective School-Wide AI Implementation

No Coding **No Software Cost** **No Experience Needed**

You are already using AI. Now make it work for your class. This intensive, hands-on workshop turns ALL educators from AI users into AI directors. Across two days, participants build at least 3 real teaching tools for their own class or subject — a full suite of syllabus-to-lesson preparations, a Quiz Challenge for exam preparation, and more. Every participant leaves with finished tools (to earn our Certificate), your own dedicated AI worker — personally trained by you — and School-Wide implementation strategies.

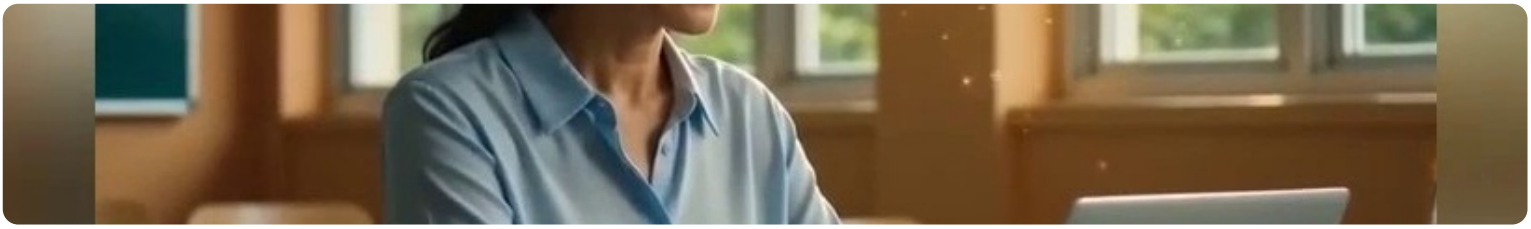

"Our Trainers are very good at making difficult concepts wonderfully easy — and within your first three hours, you will build your very first productivity tool: no code, no cost, yours forever."

Who Should Attend

All Teachers & Lecturers
Subject Teachers, Form Teachers, Maths, Music, Geography, Aesthetics, Food Sciences, Finance, Physical Education & Sports, Student Leadership/Well-Being, CCA, Discipline & Counselling staff.

Language Teachers
English, Mandarin, Malay, Tamil, History, Literature and CCE teachers.

Science Teachers
Biology, Physics, Chemistry, Technical or Engineering Dept, Life Sciences, Biotechnology — plus Technical Instructors & Engineering Lecturers.

Workshop Objectives

By the End of 2 Days, You Will Be Able To

Start building confidently
— using the 3 Magic Phrases for building, analyzing, and writing.

Build and deploy a live class website
— with a shareable URL — no hosting, no code.

Create working educational apps and games
— through plain-English instructions.

Generate syllabus-to-lesson plans, quizzes, and rubrics
— matched to your subject.

Produce professional notes, explainer PowerPoints, and exam revision tools

Apply responsible-use rules
— verifying facts, protecting student data, keeping teacher judgment final.

Rare but Crucial — What No Other Course Teaches

The Mission-Brief technique
— one page that turns a forgetful chatbot into a reliable team member.

What AI can and cannot do
— the honest map that saves you weeks of frustration.

Make AI check its own work
— spot wrong-level content and invented facts before students ever see them.

The deployment ritual
— the exact click-by-click sequence that puts your tool live, every time.

We are confident that participants will leave our workshop with 3 working teaching tools built for their exact class, a certificate of completion, and the skill to keep building — all without writing a single line of code.

2026 Sessions & Dates

All Teachers & Lecturers — **19–20 Nov 2026** · **30 Nov–1 Dec 2026** · **28–29 Dec 2026** (Singapore) · **9–10 Nov 2026** (JB–Trove) · **7–8 Jan 2027**
Language Teachers — **24–25 Nov 2026** · **28–29 Dec 2026** (English) · **12–13 Nov 2026** · **18–19 Jan 2027** (Mandarin)
Science Teachers — **26–27 Nov 2026** · **14–15 Jan 2027**

Please Note: Awakening Brilliance reserves the right to change the date/time/venue. No cancellation allowed once registration is confirmed. Replacement or postponement is allowed.

"Teachers do not need to fear AI — teachers who use AI well will simply have more time, more energy, and more heart left for the work only a human can do: knowing a child."
